

The Motherson Group is one of the 25 largest and fastest growing full system solutions providers to the global automotive industry, serving multiple further industries, such as rolling stock, aerospace, medical, IT, and logistics, with over 180,000 employees across 41 countries worldwide. The Chairman's Office Europe and North Africa (COE) is supporting and coordinating our operating units, R&D centres, and representative offices across Europe and North Africa with corporate functions and services. Given our fast growth, we are constantly looking for talented new colleagues to become part of our team.

BRUCHKÖBEL

Technical (Property) Risk Engineer (m/w/d)

Your tasks.

- Risk analysis and consulting of our manufacturing locations
- Risk improvement and loss prevention (fire protection, natural hazard mitigation, etc.)
- Implementation and development of our fire safety standards
- Standardization and implementation of object protection concepts for production machinery and processes
- Definition of protection concepts and specifications for new production locations (Greenfields)
- Development of upgrade-plans for existing plants
- Consulting on "Property Risk"-related matters and projects, maintenance and enforcement of existing technical protection systems
- Following up with local teams on risk improvement recommendations
- Accompanying and moderating property risk surveys of property insurers

Your profile.

- University degree (Master preferred) in mechanical engineering, process engineering, safety engineering, chemical engineering, or comparable experience
- Work experience in a similar function in industry will be a plus, as well as experience as a fire fighter or career changer (e.g. sprinkler supplier)
- Certified fire safety officer (Brandschutzbeauftragter) and experience on preventive fire safety (vorbeugender Brandschutz) is a Plus
- Good knowledge of fire safety and loss prevention
- Knowledge of at least one of the following codes: FM, NFPA, VDS
- Broad understanding of technologies and production processes
- (high) readiness to travel
- Expert in MS Office
- English and German as work language

What we offer.

Global Insurance - Risk Engineering is doing risk analysis and consulting of our manufacturing locations worldwide, for risk improvement and loss prevention, w.r.t. fire protection and natural hazard mitigation, both in terms of management programs, as well as technical solutions and protection systems.

We provide a pleasant working atmosphere in a new and modern working environment with good career opportunities. You will get to know exciting and varied assignments working closely to Management levels of Motherson.
