Our lack of IT legacy allows us to offer a unique technology solution that manages the complexity of international programmes

Programme Transparency

Swiss Re PULSE, our customer portal, provides an **online, real-time overview** of your international programme, including policy issuance, premium collection and claims.

Programme Structuring

Our new International programme Administration (IPA) technology supports international programme structuring. **Full integration** into our underwriting systems will enable a **fast turn around** of quotes and policies.

Knowledge Management

An **integrated knowledge tool** allows for compliance standards, tax and business rules to be incorporated directly into the underwriting and structuring process.

Information Exchange

The network partner portal with rule-based, guided workflow will allow for **easy and standardised exchange of information** with all stakeholders.

Integrated wording

ONE Form is a property wording, a framework and an IT solution. It offers you a broad state-of-the-art property coverage, faster service/response times, compliant solutions and a straight-forward governance of your international programmes.

ONE Form – Key Functionalities

Customers get a broad state-of-the-art property coverage, faster service/response times, compliant solutions and straight-forward governance of their programmes

ONE Form is a Wording

Broad state-of-the-art property coverage

All Risks approach

(named perils structures if desired)

Flexible to meet customers' coverage and limits needs

Globally consistent whilst respecting local specifics

ONE Form is a Framework

Highly flexible coverage solution with a modular Master & Local policy concept

Congruence between Master and Local policy facilitating tax & legal compliance around the globe

Increased contract certainty: higher policy accuracy, faster issuance, reduction in unexpected claims from local policies due to unclear content

ONE Form is an IT-solution

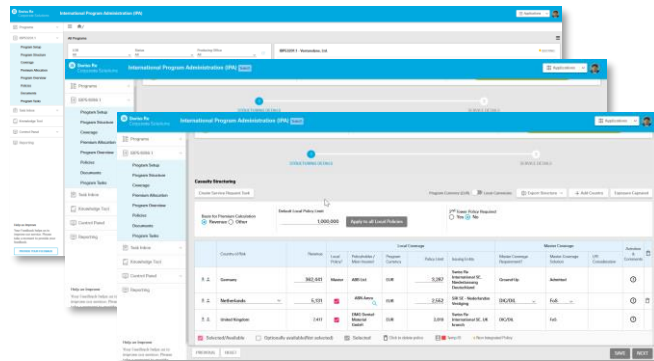

Highly automated policy issuance of Master and Local policies and timely policy issuance around the globe

Optimised data flow between systems, reducing error rates, increasing speed of policy issuance and allowing customers access to account specific flood exposure via our customer portal PULSE and its proprietary CatNet® module

Swiss Re Corporate Solutions has built an IT platform to improve the handling of International Programs and the servicing of international customers...

IPA - International Program Administration

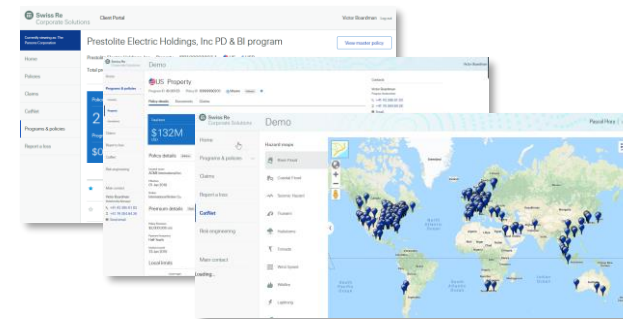

Integrated IT **platform to manage complex international business**. It covers:

- Program Underwriting process from submission to post-bind activities
- Knowledge Management
- Information exchange with local offices and Network Partners

Swiss Re Corporate Solutions PULSE

Our customer portal **PULSE provides customers with real-time information** about their international programs, including

- Policy issuance
- Premium collection
- Claims

Furthermore, they can access and monitor natural hazard exposure for the risks worldwide on PULSE by using the integrated CatNet® tool.

Introducing PULSE

One comprehensive platform,
multiple insights at your fingertips

Manage all aspects of your insurance programme quickly and seamlessly from one secure place.

Insightful

Easy access to real-time policy, claim and risk improvement information.

In control

Review your policy, submit loss notifications, track progress of a risk improvement or monitor natural hazard exposure for your risks worldwide.

Our commitment to address an industry problem

Swiss Re Corporate Solutions has incorporated technology into its strategy – we are committed to offer technology solutions that advance commercial insurance

Differentiating Software and Service Offerings for the Insurance Industry and Insurance Buyers

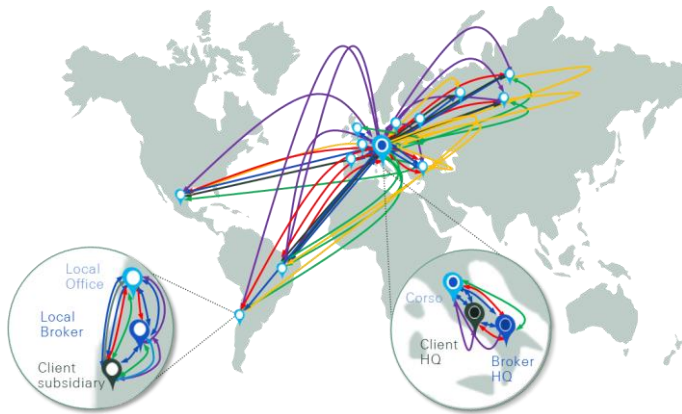

Why will our solutions address an industry problem?

“Customers, brokers and carriers experience a lot of friction when exchanging data within and across networks. In addition, missing data consistency causes customers to **accept a lot of contract uncertainty.”**

What are the underlying drivers of this complexity in International Business Programs?

Cross-network collaboration

A large number of data exchanges amongst carriers, brokers and customers

- No common source of data
- Duplication of efforts

Lack of standardization

A lack of common...

- Product description
- Coverage description
- Process definition

High degree of complexity

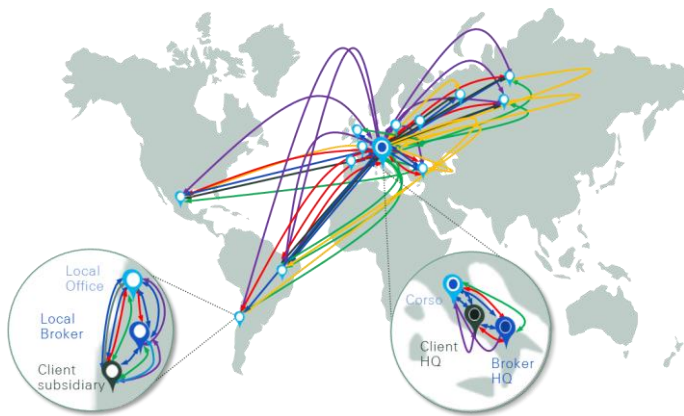

Cross-network collaboration and lack of standardization **driving complexity and leading to process frictions** in...

- Policy Issuance
- Cash Movement
- Risk Engineering Services
- Claims

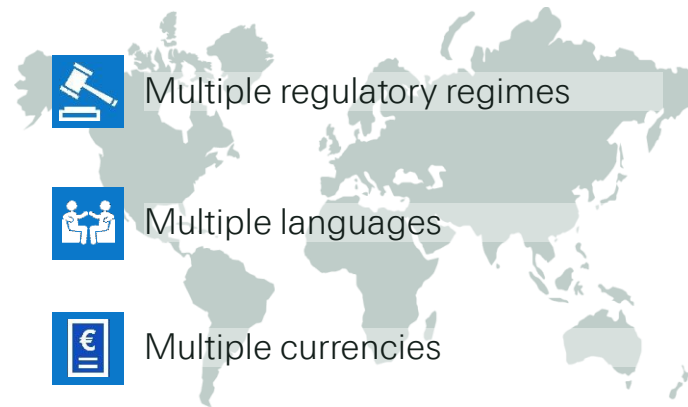

The large number of data exchanges combined with a lack of standardization lead to a lot of operational challenges and process frictions for Brokers and Carriers

To tackle the underlying problems of International Programs...

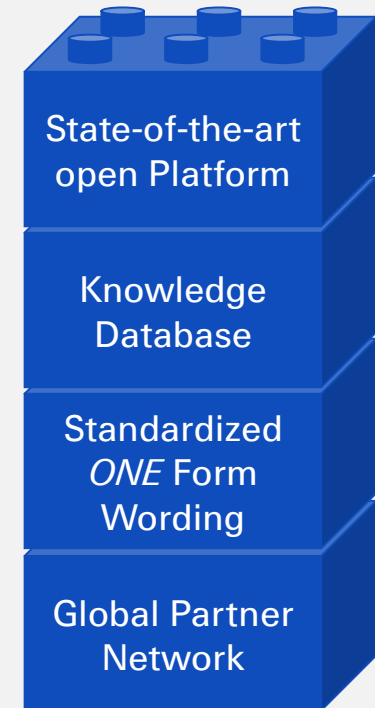

Cross-network collaboration

Lack of standardization

... several building blocks are needed

For international programs few dedicated platforms exist and silo solutions are not addressing the data exchange problem

1 Reducing friction within each network

Customer Systems

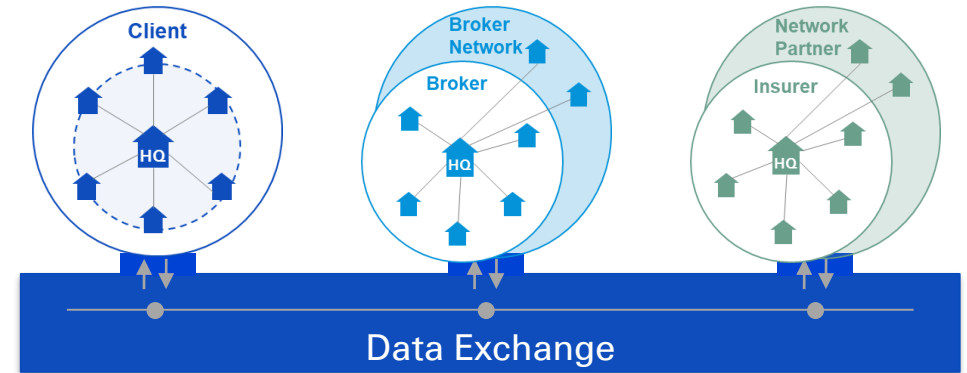

Broker System

Carrier System

2 Reducing friction in data exchange between all parties

How are our solutions contributing...

CorSo's International Program Solutions for Brokers and Carriers bridge capability gaps and...

International Program Solutions

Pulse

Customer portal PULSE provides customers **with real-time information** about their international programs

Broker IPA SaaS

Comprehensive solution streamlining **International Program placement** and **administration**

Carrier IPA SaaS

Integrated platform to **manage International Programs** from Underwriting to Policy Placement & Management

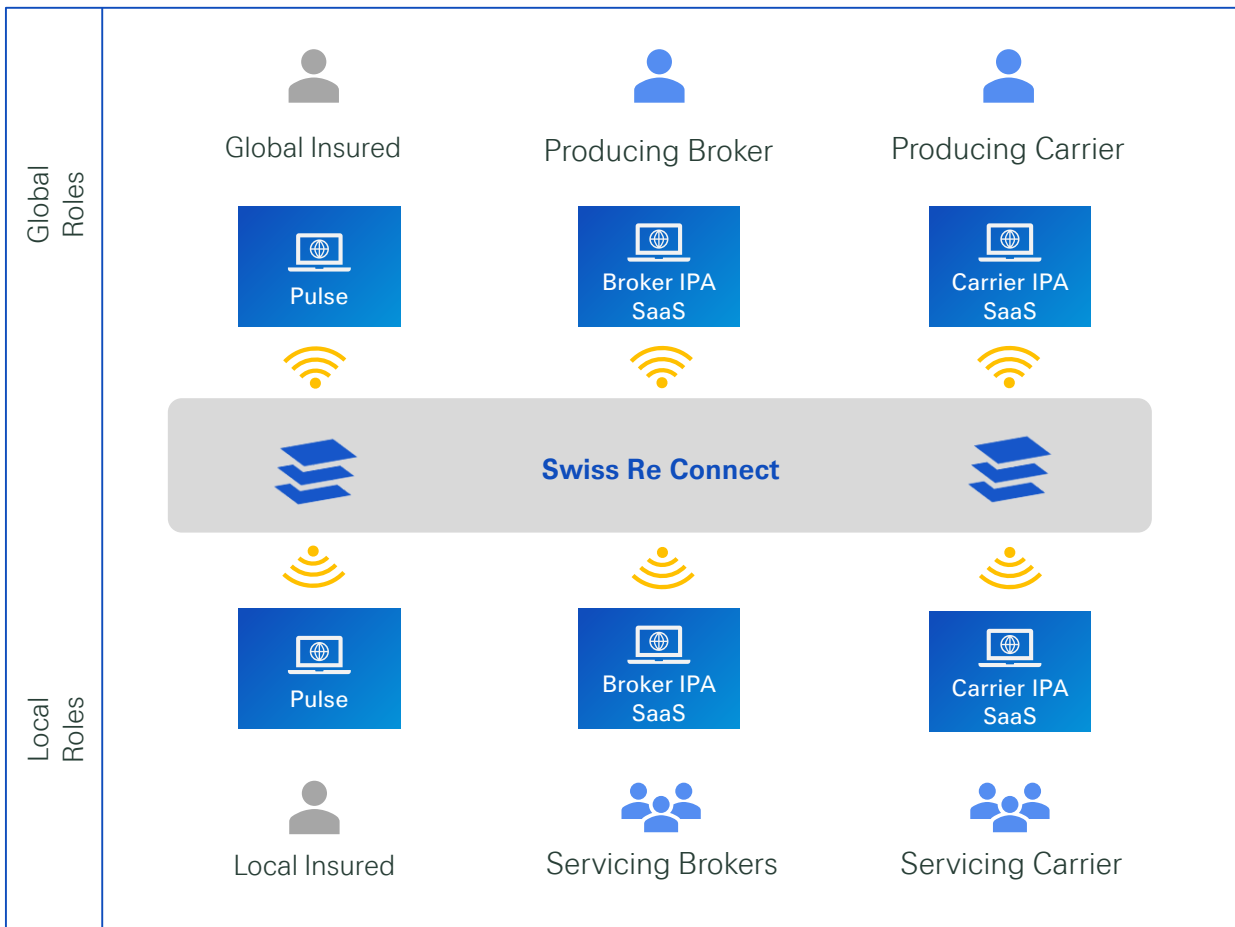

IPaaS

International Program as a Service "IPaaS" - Comprehensive solution including **IPA** and **access to CorSo Network** for policy issuance and claims handling

...open the way to an open market platform

- System & Service capabilities enabling Brokers and Carriers to enter the IB market
 - Connectivity between market participants enabling structured data exchange
- ▼
- ✓ **Improved service quality** to customers
 - ✓ **Increased competition** in the market with new players joining
 - ✓ **Improved comparability of quotes** due to higher degree of standardization

Connecting Insurance - Our goal with the CorSo International Program Solutions

Components

- Data Exchange Platform** orchestrating the structured data exchange between market participants in a secured and standard way
- CorSo SaaS solutions** supporting an efficient handling of multinational programs and end-to-end data exchange
- Business APIs** providing standard interface for a coordinated data exchange between insureds, brokers, carriers using their own platforms

Benefits

Improved data consistency and standards in data exchange to...

- Enable transparency** on program implementation progress, cash movements, etc. across all parties
- Improve contract certainty** of programs and trust among all parties
- Enhance servicing efficiency and excellence** by reducing process friction

Where do we stand...

IPA - A software addressing the biggest challenges within International Programs

The screenshot displays the IPA software interface for a program titled "Cheese Corp Property. - PR000027.1". The interface includes a top navigation bar with icons for Home, Search, Support, Alert, Chat, and Profile. A left sidebar contains navigation options: Producing Dashboard, Servicing Dashboard, Knowledge Base, Program Overview (selected), Program Summary, Program Documents, Program Activities, Program Reporting, Program Risk, Program Designer, and Policy Manager. The main content area shows the "Program Overview > Program Summary" view with tabs for OVERVIEW, CHAT, ACTIVITIES, DOCUMENTS, and REPORTS. The OVERVIEW tab is active, displaying a table with program details:

Name	Owner	Team	Client Legal Entity Name	Client Legal Entity Country	Client Contact Name
Cheese Corporation Ltd.	John Smith	John Doe, Jane Smith, Frank Mate, Mar...	Cheese Company Ltd.	Switzerland	Pascal Hürlimann
Line of Business	Coverage Type	Inception Date & Time	Expiration Date & Time		
Property	PD & BI	1 st Sep 2020, 12:00 CET	1 st Sep 2021, 12:00 CET		

Below the table, there are sections for "Producing Country" (CHE) and "Local Countries (4)" (USA, DEU, FRA, IND). At the bottom, three panels are visible: "Program Risk" (In-progress) with sub-items like Exposure, Business Description, Loss History, and Additional Information; "Program Designer" (In-progress) with sub-items like Structure, Terms & Conditions, Program Premium, and Submission Manager; and "Policy Manager (3)" (View All >) with sub-items like Swiss_Master, USA_Local, and DEU_Local.

Thank you!
